DXpedition News

Malyj Vysotskij Island - 4J The second MV Island DXpedition will take place May 22-30, again with both Soviet and Finnish operators. No callsign selected yet. They hope to have four stations operating 24 hours a day, to give DXers a good shot at this new DXCC country. More details to come.

Revillagigedo - XF4 The **XF4L** operation, on now, is missing one its top operators. Martti Laine OH2BH broke his ankle while in the US on his way to Mexico, and had to return to Finland. He'll also miss Visalia and Dayton, but still expects to join the MV Island DXpedition (above.) QSL XF4L to OH2BN.

Congo - TN Tom Gregory N4NW/9Q5NW makes his final operation as **TN4NW** in an 18-hour stint beginning 1900Z April 14. SSB only on 28490, 21250, and 14180 kHz. **Don't** call if you've worked him before. QSL to AL7EL, as usual.

Edited by Chod Harris VP2ML

The DX Bulletin

America's Premier Weekly Amateur Radio Publication

Mozambique - C9 **C9MKT** will be on for two weekends in May: May 12-14, and again May 19-21. The latter operation replaces the scheduled June operation; he will **not** be on the air in June. The C9MKT license expires in June, so catch him in May.

Willis - FW Ron Wright ZL1AMO is presently on as **FW0BX**, for about two weeks. He's been on 21029 kHz at 05-0700Z, 28022 kHz at 2200Z, 14170 kHz at 1300Z, and he even has RTTY gear with him. Remember, on CW Ron says he's listening up, but also works stations **below** his transmit frequency. QSL ZL1AMO. Sunrise 1800Z, sunset 0530Z.

Marion Island ZS8 **ZS8MI** is on the air, mainly 20 meters. Watch 14145 kHz (listening 14160-70), and 14010 kHz. QSL ZS6PT. He'll be there 14 months.

Shortly Noted

- Portsmouth Island (NA-67) will be on April 29-30, all bands. Usual DX frequencies, and Islands On The Air nets at 1300Z. Operators are WA4DAN, WB4PAC, NJ4J, W4HDE, and KE4I. QSL WA4DAN.
- Graham **VK0GC** expects to be very active from Macquarie Island. Try VK9NS's net on 14222 kHz at 0700Z.
- F6FYD is active as **T5YD** and **6O1YD**. QSL F6AJA.
- **FT4ZE** is on 14250 kHz at 0040-0150Z, 21020 or 28020 kHz at 11-1300Z, and 14120 kHz at 1530Z.
- GW4UZL will be on SSB April 20-23 as **GD4UZL/p**. QSL direct only to Box 49, St. David's, Wales.
- **VP8PU** on the Falklands is in KD0JL's net on 7159 kHz 0545-0800Z. QSL via WA4JQS (1989 *Callbook*).
- Luxembourg amateurs can use the special call **LX150L** in 1989, celebrating the 150th anniversary of the Luxembourg constitution. LX150L will be on in WPX CW and CQWW CW. QSL LX bureau. (Thanks DX-Press.)
- Several PP5 amateurs will use the **ZZ5** prefix May 1-7, celebrating Brazil's Communications Week. QSL to corresponding PP5 call, ie. QSL ZZ5AS to PP5AS.
- Contrary to rumors, **HZ1AB** has no plans nor prospects of getting 6-meter operating permission.
- According to alleged QSL manager KB2BF, the very active **3V8QZ** is not legitimate. Don't QSL to KB2BF.
- Bill **V85AA** has a sked Sundays at 1400Z on 14320. He'll take calls **after** the sked. QSL *Callbook* address.
- **9X5AA** skeds QSL manager W4FRU at 1900Z Tuesdays on 21360 kHz. Again, please wait until **after** the sked to call Jon.
- **JX0A** on the ice pack (counts as maritime mobile for DXCC) is on 3710 kHz at 2100Z.
- **7S6DO** is a special event station commemorating the 50th anniversary od the Sixth Air Wing Västgöta Flygflottilj (F6) of the Swedish Air Force. The station will be on May 29-June 4, 25-30 kHz up on CW, all bands. QSL to SM6DEC.
- After several months with no activity, Johnston Island is back on the air. **KN0E/KH3** is very active on 20-meter CW around 0500Z, and 21015 kHz at 0330Z, as well as other times. QSL to Box 1139, APO San Francisco 96305.
- **CE0AP** is on the South Shetlands. QSL to CE3ESS. **HL5DBS** continues to be very workable on 10-meter CW 20-2400Z. QSL to HL1ASS.
- Regulars (callsign, frequency or band, UTC): **4S7EA** 14007 0030Z; **EK0BP** 20M CW 17-2000Z; **PA0GAM/ST2** 20M CW 2300Z and 28025 19-2000Z; **TA4A** 20M CW 0200Z; **TF3CW** 14028 23-2400Z; **VQ9AX** 14012 1300Z; **TL8WD** 20M SSB 0500Z; and **D68JL** 21031 1900Z.
- SSB net check-ins: 20M 9M2FR A92BE JT1BG 5N0LRC 3DA0AH ZC4AB 3D2ER VK6KY; 15M VP8BUB. In UA9AB's net on 14260 kHz at 0330Z Sunday: UI8DAF, UI8VA, and RA0AD/JT (see page 2 for QSL info.)
- RTTY reports: **5Z4BH** 21090 1950Z; **HC8VB** 14085 0300Z; **YJ8JS** 14083 1200Z; **9J2KF** 14096 2200Z; **KX6GL** 28090 2345Z; **TK5IU** 14093 0050Z; **OX3GC** 14081 0120Z; **FK8DQ** 14077 ARQ 0445Z; **CT3FF** 14091 1020Z; **P29JW** 14093 1045Z; **CN8EL** 14092 2145Z; **6W1QD** 14083 2200Z; and **BY9GA** 21090 0100Z.

Propagation Watch

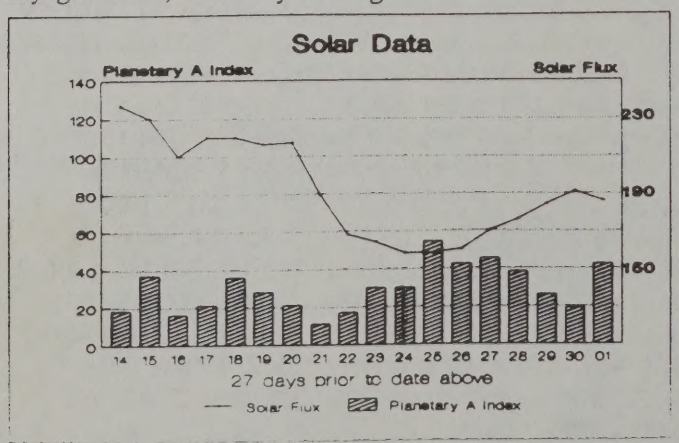
The bands continue to be plagued with a combination of low-to-moderate solar flux, and active-to-unsettled geomagnetic activity. Because the solar flux is lower than anticipated, openings on 6 meters have been scarce, short, and weak. The higher HF bands have been open daily, but primarily over low-latitude paths. The higher latitude paths, polar paths, and long paths have been adversely affected by the high level of geomagnetic activity.

The active geomagnetic field has reduced signal strengths and eliminated much of the world-wide openings that we should have at this season. A K-index reading of 3 or more indicates degraded conditions. The planetary K index has been 2 or below less than 10% of the time in the past month. As the graph below shows, the planetary A index has been higher than 20 most days, again signaling less than optimal band conditions.

The high geomagnetic activity has been especially bad for the low bands. The high absorption has practically eliminated long-range propagation on 160 and 80 meters.

The good news is that dreaded sunspot region 5395 did not reappear. That mammoth region destroyed radio propagation for much of mid-March, but apparently faded away while on the back side of the sun.

The forecast for the next two weeks is for decreasing solar activity, and increasing geomagnetic activity; in other words, more of the same. The low bands will be almost worthless, with only occasional openings at local dawn and sunset. 40, 30, and 20 meters will also have useful openings at those times, with the 20-meter long path at dawn especially productive. These bands will be open most of the night, if the geomagnetic field is quiet enough. The higher bands will continue to provide the bulk of the DX, during daylight hours, into early evening.



QSL News

- The recent Pacific DXpedition by Hilde DL5UF, Hans DF2UU, and Ulmar DK1CE netted about 21,000 QSOs from Western Samoa, American Samoa, and Tonga. QSL **5W1HZ, DL5UF/KH8,** and **A35UF** to Hilde Moehringer DL5UF, Bulacher Str. 13, 7505 Ettlinger, West Germany. QSL **5W1HY, DF2UU/KH8,** and **A35DX** to Hans Peter DF2UU, P.O.Box 2017, 7550 Rastatt, West Germany. QSL **5W1HX, DK1CE/KH8,** and **A35CE** via Franz Langer DJ9ZB, Carl Kistnerstr. 19, D-7800 Freiberg, West Germany.
- Gintas Sakenas UP2BKW says the **LY2WW** cards have not yet been printed, due to "unintended bureaucratic formalities." Don't send follow-up requests. The direct address is Box 639, Vilnius, Lithuania 232049. IRCs preferred over US$1, and no callsigns on the envelopes. Gintas also says that cards for any UP, RP, or LY station can be sent via the Lithuanian National QSL Bureau, Box 1000, Vilnius, Lithuania 232001.
- John Parrott W4FRU says he has not yet received the **3W0A** logs, nor final QSL card design. However, the cards will be printed in the US, and he doesn't expect a long delay. He also reminds DXers that if your 3W0A cards seem to take longer than those for other DXers, remember how many cards you sent in one envelope. Multiple card requests and multiple callsign requests will take longer to answer.
- Jack Shurtliff K7EHI says many cards for **T32AF** are going to N7EHI instead of to Jack. These cards are being forwarded, but DXers should double-check the address before mailing. Many envelopes have the right callsign but the wrong address, suggesting DXers slipped a line in the *Callbook*.

QSL Addresses

R0C P.O.Box 1273, Khabarovsk 680051, USSR
RB5MP.O. Box 59, Lisichansk 349900, USSR

QSL Help Wanted

- K7EHI needs QSL info on **KH0D**, Feb. 1989, and **IR4VEQ**, March 1989.
- K5PQK seeks QSL info on the following contest operations: **FM5T** and **ZF2MWV**.
- WB8GEW is looking for a direct QSL route for **UV3CC/UA1P** on Franz Josef Land. The operator said to QSL via the bureau.
- And several readers have asked how to get a QSL from **3B8CF**, who is very active. No QSLs have been reported received from 3B8CF this year.

Notes from All Over

- The LA DX Group holds its annual DX meeting on April 21 in Oslo, Norway. Guest speaker is Willy UA9CBO who will talk about amateur radio in the USSR, including DXing, contesting, club activities, license rules, and other amateur topics. For details on registration, contact the president of the LA DX Group: Trond Olsen LA8XM, Anna Rogstadsvei 14, N-0592 Oslo 5, Norway, or call 47 2 65 20 91 after 1700Z.
- The Portland, Oregon, area has a PacketCluster DX spotting network. The call is WR7D, on 145.61 MHz. For more information, contact Bob Martin N7JXN.
- The DX Advisory Committee has received an application for separate DXCC status for **Basilica Del Santo**. The Basilica is located near Verona in northern Italy. According to I1RBJ, the agreement between the Vatican and Italy that provides separate country status for the Vatican includes the Basilica. Since the Basilica is separated from the Vatican in Rome by more than 75 miles, it might qualify under Rule 3(a) of the DXCC country criteria.
